### Producing World Class Conferences

BlackSharp & Company is a consulting firm, with three distinct practices:

- A management consulting practice for senior executives of mid-sized firms,
- A digital & social media agency that plans and executes campaigns to increase stakeholder engagement, and
- A global trade practice that works with companies expanding into the US or establishing a presence in Canada.

Over the past two decades we've had the privilege of producing events for some of Canada's leading advertisers, publishers and advertising agencies as well as U.S. Governors, dignitaries and diplomats.

We've learned a lot over the past twenty years and have identified a need for professional event production and management that's more in-tune with current day needs of the sponsors, presenters and delegates. To that end we've officially launched BlackSharp's Conference Production Division as a separate entity to produce and manage world class conferences and premium events.
